CERTIFIED SEED

Certified seed guarantees the seed you buy has gone through all proper multiplication, inspection and cleaning processes to ensure a superior product. Certified seed is tested to ensure excellent germination, has improved traits like dark green colour, pest and drought tolerance and is tested grade by accredited experts.

ENDOPHYTE ENHANCED

Greatly reduce the risk of insect infestation and the need for chemicals with one of these endophyte enhanced mixtures. Endophytes are a natural and beneficial component to a lawn seed mixture. After the grass seeds germinate, endophytes create a natural compound within the plant which insects prefer not to feed on.
