# MAC

METAL ARCHITECTURAL

For over 30 years, MAC has been offering its customers top-of-the-line steel cladding profiles designed and manufactured entirely in Canada. In a constant quest for innovation, our company offers products with rich and unique colors, bringing style and elegance to the projects they clad.

We promise you sustainable, high-performance products that will enhance and protect your home's exterior. Backed by a 40-year warranty, they will give you peace of mind for years to come.

At MAC, we do not compromise on quality or aesthetics. We strive to offer you products that are in tune with contemporary architectural design so that they are the perfect style complement to your property. We want to help you turn your new project into the dream place you imagined.

In addition to enhancing the look and value of your home by 6–8%, MAC profiles are maintenance-free and offer impeccable, lasting beauty year after year. Discover our unique styles that will perfectly match all your projects!

**LET YOURSELF BE INSPIRED!**

# THE LOOK AND RICHNESS OF WOOD

---

**without the maintenance!**

With busy schedules, we sometimes run out of the time needed to maintain our homes.

The MAC Wood Collection offers you the beauty and richness of wood without the maintenance that comes with it. As a result, you will be able to enjoy the comfort of your home for years to come.

Each color in the Wood Collection comes in six different planks of various grains and shades, designed to recreate the look of wood and make the final result as natural as possible. Our goal is to create products with contemporary designs and colors that blend in seamlessly with the environment around them.

# BOARD AND BATTEN

For a timeless farmhouse style

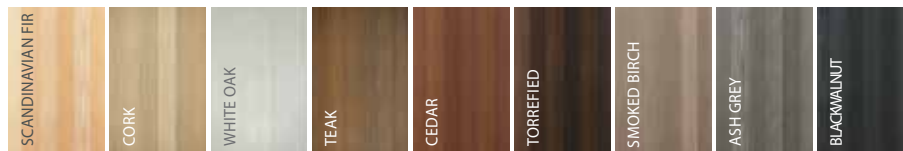

Embrace the Farmhouse style with the new Board and Batten and Reverse Board and Batten profiles. These profiles offer you the authentic, timeless style that is all over the modern design world. Go for contrasts by playing with tone-on-tone or choose one of our hyper-realistic wood colors.

Regardless of what you pick, MAC's Farmhouse series is sure to add style and finesse to any of your projects. Best of all, you're choosing a sustainable, maintenance-free product!

# HARRYWOOD PLUS

The beauty of design in all its simplicity

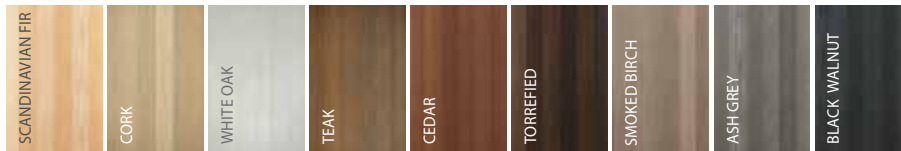

In our constant quest for innovation and continuous improvement, we have redesigned our flagship profile, the Harrywood, to offer you an improved version that will simplify the installer's life while offering the same elegant design.

Designed specifically to save you time and money on installation, each panel fits on top of the next, requiring only gravity and a gentle push to fix the panel into place. Now you can say goodbye to installation hassles!

# HARRYWOOD

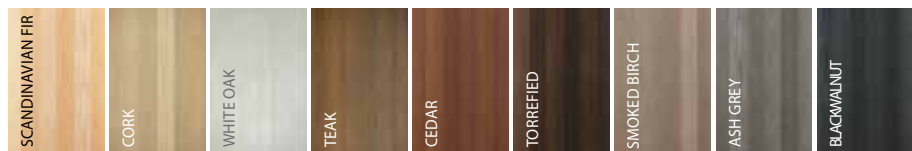

The look of wood,  
the durability  
of steel!

This European-influenced profile, with its fine, clean lines, will give your home its own unique signature. It will blend in perfectly with both contemporary and classic designs. Combining style, strength, and durability, it will inevitably enhance the look of your project by adding an unparalleled elegance.

# 8 REASONS TO CHOOSE MAC

## 1 // Highly resistant paint

With Textural III & IV, we offer our customers a unique painting process that provides superior protection against weathering, extreme climatic conditions, and scratches.

## 2 // 40-year warranty

Since we use superior grade steel and an incomparable painting process that ensures longevity and strength, MAC offers its customers its 40-year Quiet Warranty, perfect against the weather and our country's distinctive climate.

## 3 // A plus for your property

With their transferable warranty, MAC steel siding offers added value to your property. In addition to saving you significant installation costs over the long term, you'll increase the value of your home by 6-8%.

## 4 // An environmentally friendly product

MAC steel siding is one of the premium building products of the new millennium. Made from 86% recycled materials, MAC products have low toxic emissions and are 100% recyclable at the end of their life.

### **5 // Maintenance-free**

MAC steel siding retains its original appearance and requires little maintenance, so you will be assured of peace of mind for years to come.

### **6 // Increased resistance to rust**

MAC pre-painted galvanized steel products and their textural paint system provide increased rust resistance, making them your best protection against harsh weather conditions.

### **7 // Superior product**

Because performance, efficiency, and customer satisfaction are our primary concerns, we never skimp on quality. We can therefore offer you quality profiles that stand out!

### **8 // Perfect finish**

MAC is THE leader in screwless profiles. You will therefore benefit from top-quality products that will add prestige to all the buildings they cover.

# METAL BLOCK

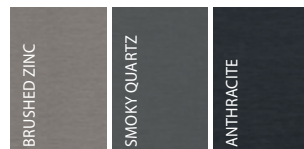

For a unique creation!

This uniquely designed profile with no visible joints perfectly reproduces the look of architectural blocks. Determine the distance between the transverse grooves on your project to leave an incomparable signature. Use them in 12 in x 12 in size to replicate the look of steel tiles or in 12 in x 24 in to recreate ceramic blocks, all at a fraction of the cost. Discover the versatility of this beautifully designed product, which can be installed diagonally, horizontally, and vertically.

Metal Block  
12" x 1" x 3' @ 60'

# HARRYWOOD BLOCK

For a distinctive touch!

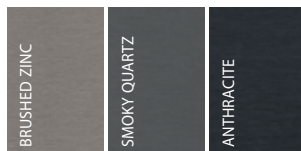

Harrywood Block's clean lines accented with cross grooves give it a distinctive, modern finish. Once installed, the look of the profile is reminiscent of slender ceramic blocks, combined with the strength of steel. Harrywood Block offers almost unlimited installation customization options.

You can install it in an aligned joint, offset joint, or broken bond. Plus, it's easy to install vertically, horizontally, and even diagonally.

# THE TEXTURAL SYSTEM

## Technological performance

---

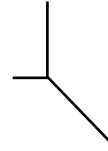

MAC's exclusive TEXTURAL III and IV paint processes provide superior protection against extreme weather and climatic conditions.

In order to always offer superior quality products, TEXTURAL paint technology is applied to all our products. Our wide variety of colors creates an unparalleled depth of hue and texture, perfectly reproducing noble materials such as oxidized copper, zinc, and wood, while matte surface finishes eliminate unwanted glare from the sun and provide a clean finish.

### TEXTURAL TECHNOLOGY PERFORMANCE UNDER THE MICROSCOPE

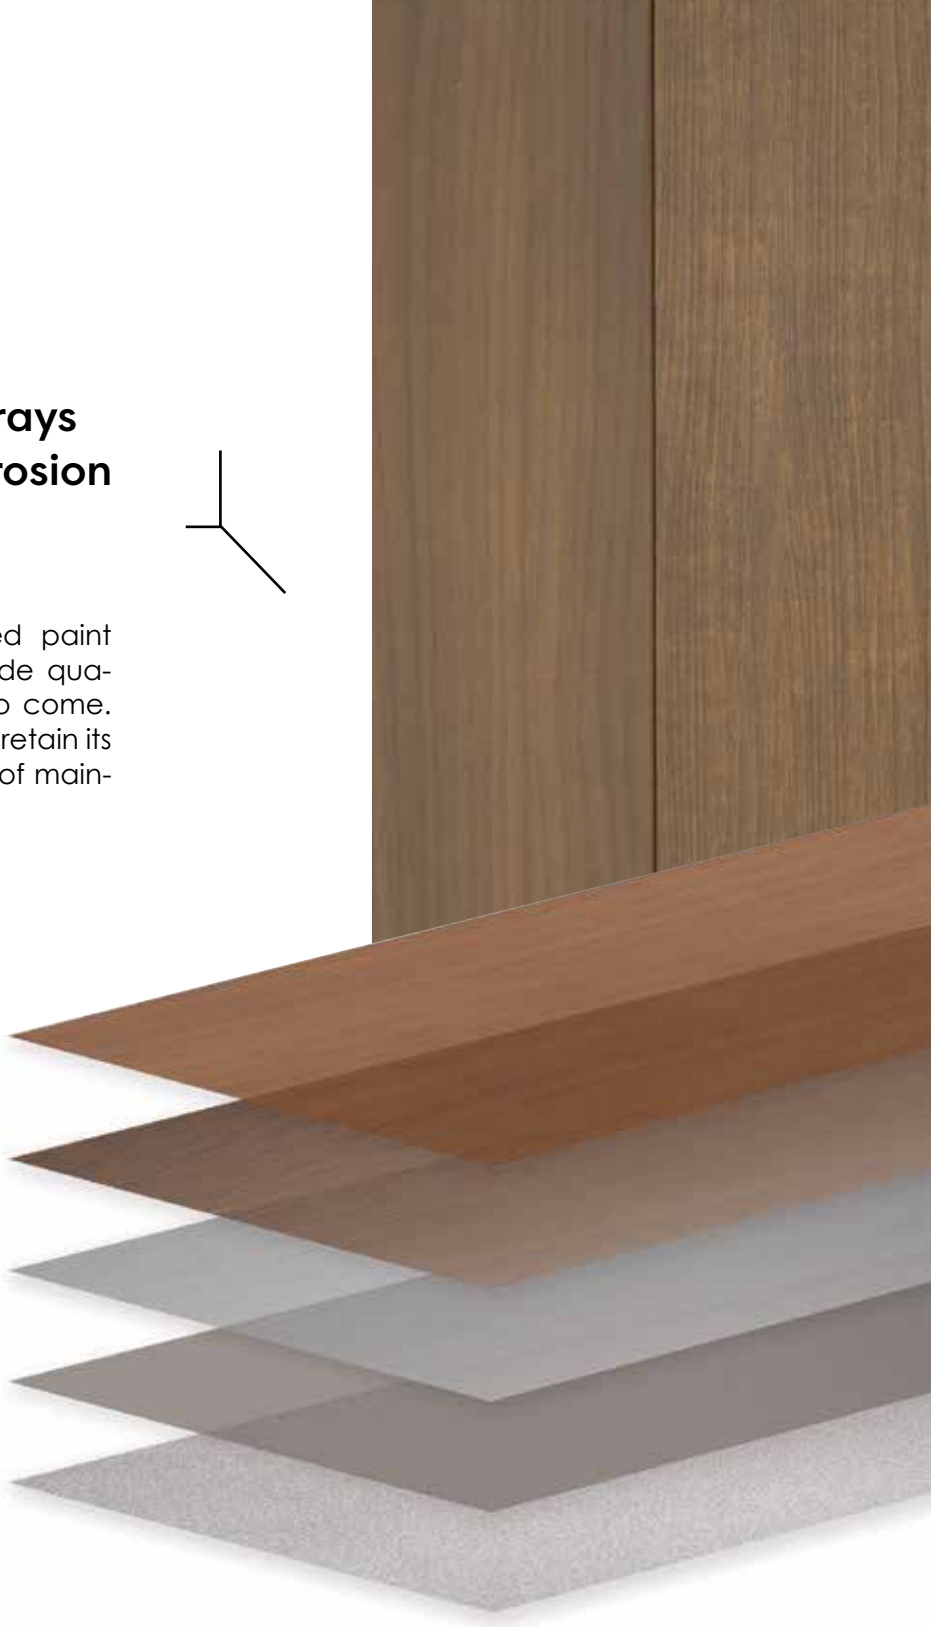

- Exceptional corrosion resistance
- Excellent fade resistance
- Superior protection against weathering and extreme climatic conditions
- Scratch and delamination resistance

**2x more resistant to UV rays**  
**3x more resistant to corrosion**

MAC uses only the most advanced paint technologies in the industry to provide quality cladding that will last for years to come. Our PVDF-based Wood Collection will retain its natural wood look without the worry of maintenance or fading.

# MS 380

## A touch of dynamism!

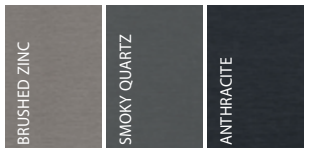

MS 380 & MS 1 | Titanium Black

The soft corrugation of the MS 380 Corrugated profile makes it a perfect modern solution. Unlike traditional corrugated panels that tend to have a more industrial look, the MS 380 has a slight 3/8-inch corrugation that makes it much more refined and versatile. Flexible lengthwise, it allows for some malleability for a curved installation.

As an insert or to create an interesting architectural detail, this siding adds a gentle sinuosity to a building lacking vitality.

### STEEL MEANS GIVING THE ENVIRONMENT A FUTURE

Since we place the environment at the heart of our priorities, all of our products are made from 86% recycled material and are 100% recyclable at the end of their life, in addition to being eligible to earn the following LEED points:

- Recycled steel content (LEED – credit 4.1 & credit 4.2)  
Valid for all coatings (roofs and walls)
- Reduction of heat islands (LEED – credit 7.2)  
Valid for roof coverings with slopes, depending on the solar reflectance index (ISR or SRI greater than 29) corresponding to the chosen colour

# STEEL AN ECOLOGICAL CHOICE

**At the center of all trends and innovations, eco-responsibility and sustainable development are the future of construction and renovation.**

With the passage of time, environmental standards become increasingly important, and companies must aim for more eco-responsible actions. At MAC Metal Architectural, we do not take the environment lightly, and we do everything we can to surpass ourselves in this area that is so important to us. How do we do this? By offering products made from recycled materials for your homes! We are proud to say that MAC steel has low toxic emissions and is 100% recyclable at the end of its long life.

**Made of 86% recycled steel / 100% recyclable**

**Contributes to your project's LEED certification**
